General Conditions For The Supply Of Electricity

All labour working on electrical installation must have proof of their competence, i.e. BECA Registered or JIB Approved

Plug points are listed overleaf together with a price schedule, exhibitors should indicate the number required and return the form to the official electrical Contractor no later than the deadline date overleaf together with payment for 100% of the value of the order.

The supply cannot be guaranteed if the order is received after this date and may result in a surcharge of 25% over the prices quoted.

Exhibitors requiring electrical power or equipment not listed should send precise details to the electrical contractor and an estimate will be given.

ELCB protection is required for each stand.

No more than one appliance may be connected to any one socket and no lead must exceed 2.0 metres in length.

Queries about electrical circuits, apparatus, or work not carried out will only be recognised by the official contractor if notification is made to them before the close Of the exhibition.
